

CREATIVE - DRAWING

Draw It in Four Steps

Twelve pictures, broken into four steps each

Children who say they cannot draw usually mean they cannot draw a whole thing at once. Almost anyone can copy one line.

Each page shows the same picture four times, with a little more added each time, and then a large empty box. The child copies the steps in order and finishes with a drawing they made themselves.

A4 - black ink only - ages 4-9

Draw a sun

Copy step 1, then add step 2, then 3, then 4, in the big box below.

step 1

step 2
