

Match Capital to Small

Twelve sheets, the confusable pairs last

A

c

B

a

C

b

A child who knows all 26 capitals still has 26 more shapes to learn, and only about half of them look anything like the capital.

C, O, S and V are easy. A, B, D, E, G, Q and R are not.

The last four sheets are made entirely of the letters children actually mix up.

A4 - black ink only - ages 4-6

Draw a line to the matching letter

Say the letter out loud as you draw the line.
