

3 Digit Subtraction Worksheets

288 column sums in six stages, no borrowing through to borrowing twice

	H	T	O
	5	0	3
-	1	6	8

Every sum is set out in columns under H, T and O, so a child always takes ones from ones, tens from tens and hundreds from hundreds. The shorter number sits under the right-hand columns rather than being padded with a leading zero.

Six stages of four sheets, ending with a sum that needs exchanging twice. The small boxes appear only where there is an exchange.

Twenty-four sheets of twelve. Answers at the back.

US Letter - black ink only - class 3 and 4, ages 7-10

3 digit - 1 digit, no borrowing

Take the ones away. Tens and hundreds come down.
