MATH - SUBTRACTION

4 Digit Subtraction Worksheets

192 column sums in six stages, no borrowing through to borrowing across zeros

Every sum is set out under Th, H, T and O, so a child always takes ones from ones and thousands from thousands. A shorter number sits under the right-hand columns, never padded with a leading zero.

Six stages of four sheets. The last stage is the one that trips children up most: 5003 - 1768, with no ten and no hundred to open.

Twenty-four sheets of eight. Answers at the back.

US Letter - black ink only - class 3 and 4, ages 8-10

Name _____ Date _____

4 digit - 3 digit, no borrowing

Take the ones away. The thousands come down.
