HANDWRITING - CURSIVE

Cursive Lowercase Letters a-z

26 worksheets, one letter a page, on a four-line cursive rule

Each sheet is one letter: solid grey letters to copy, dotted ones to trace, then empty lines. The rule is set to a looped cursive, so tall loops reach the top line and tails sit below the base.

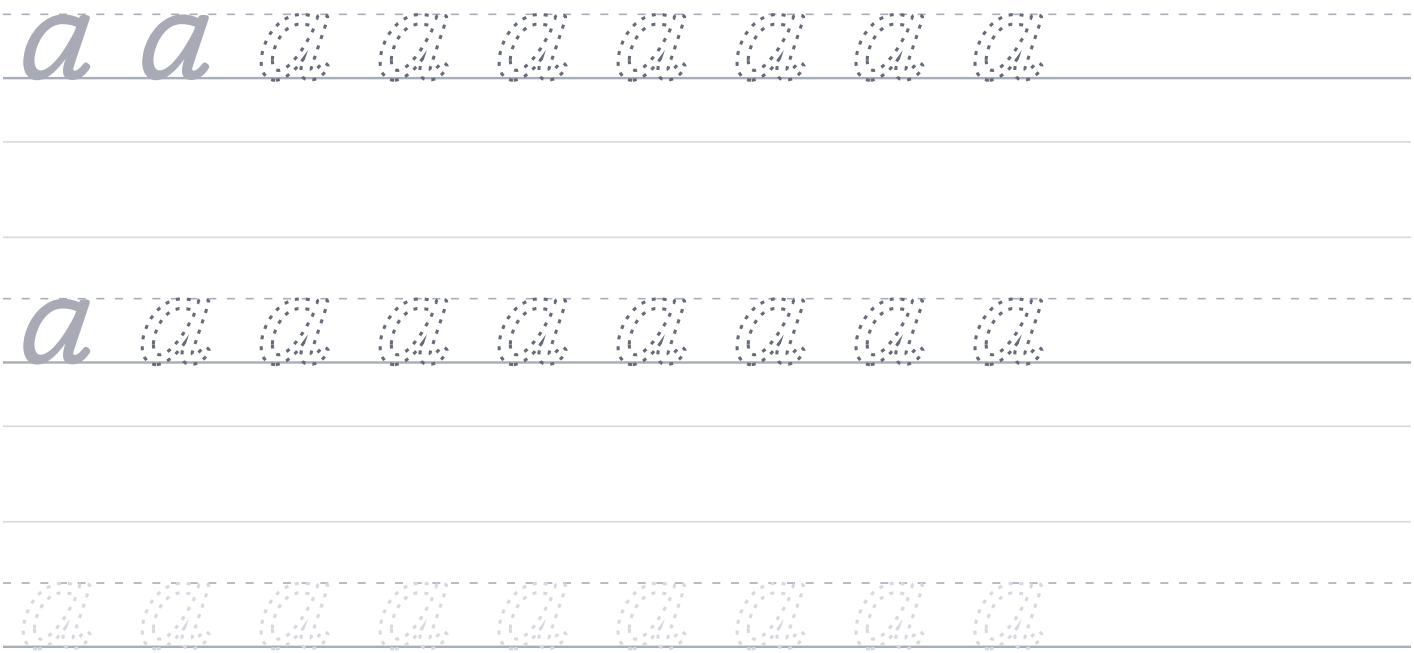

Traditional US cursive (Playwrite US Trad), loops on b, f, h, k, l.

Twenty-six sheets.

US Letter - black ink only - ages 7-10

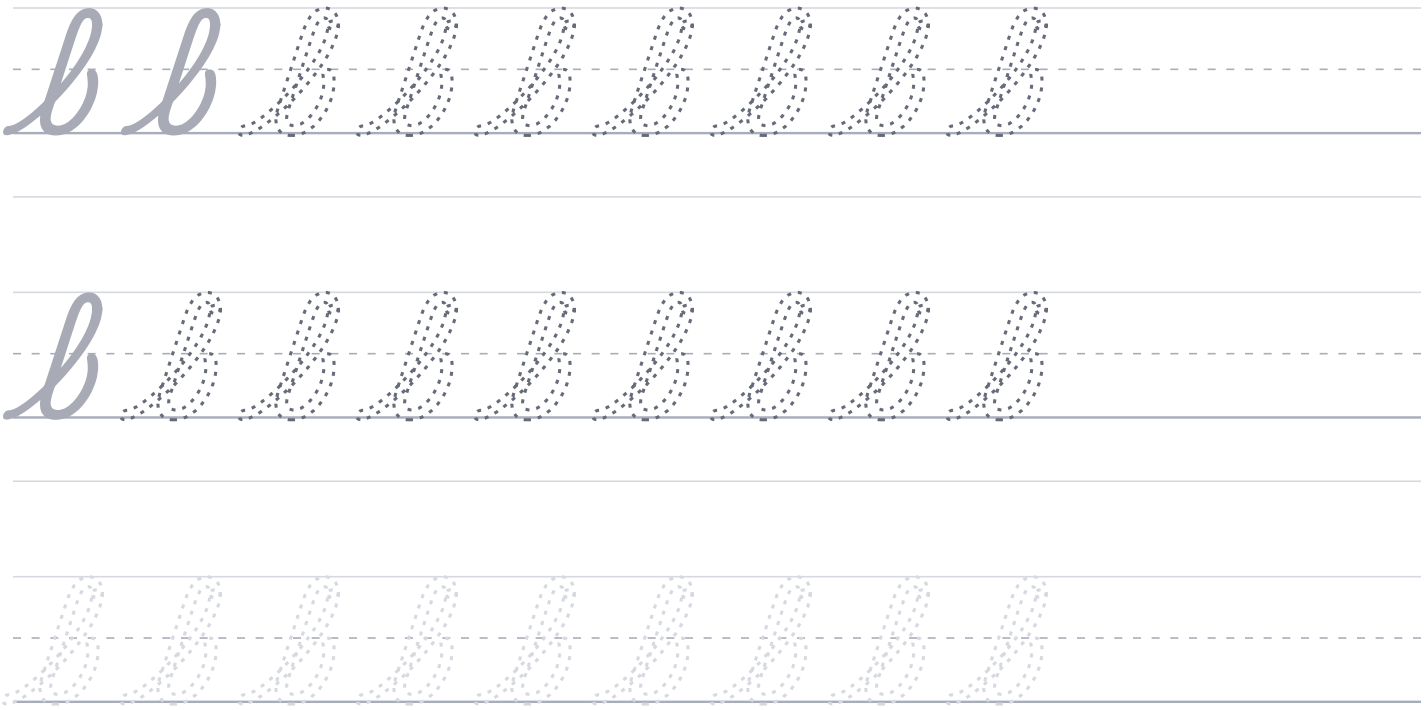

Cursive *a*

Start like *a* c: just under the midline, curve back and round.

Cursive b

Loop up to the top line, come down, and finish with a small curl.

Cursive c

Start like a c: just under the midline, curve back and round.

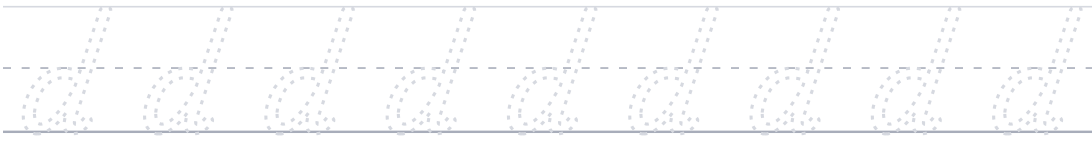

Cursive d

Start like a c: just under the midline, curve back and round.

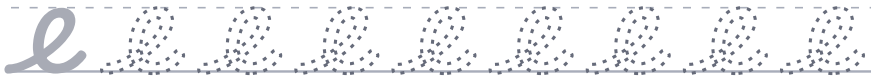

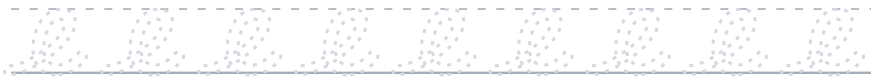

Cursive e

A small loop that only reaches the midline. l is the tall one.

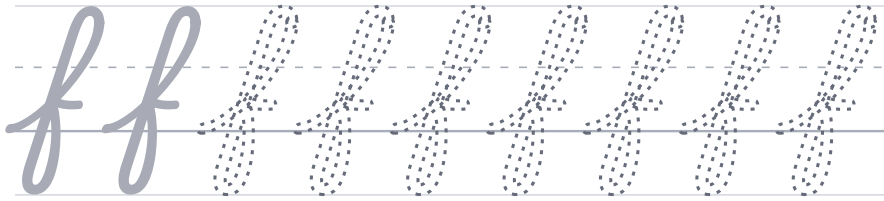

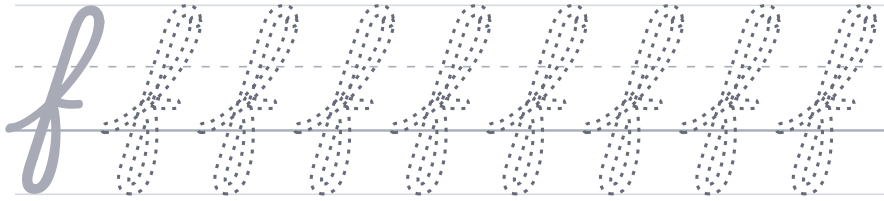

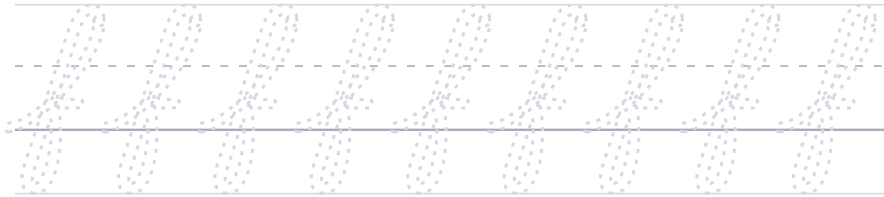

Cursive f

Two loops: one up to the top line, one below the baseline.

Cursive g

Start like a c, then go below the line and loop back up.

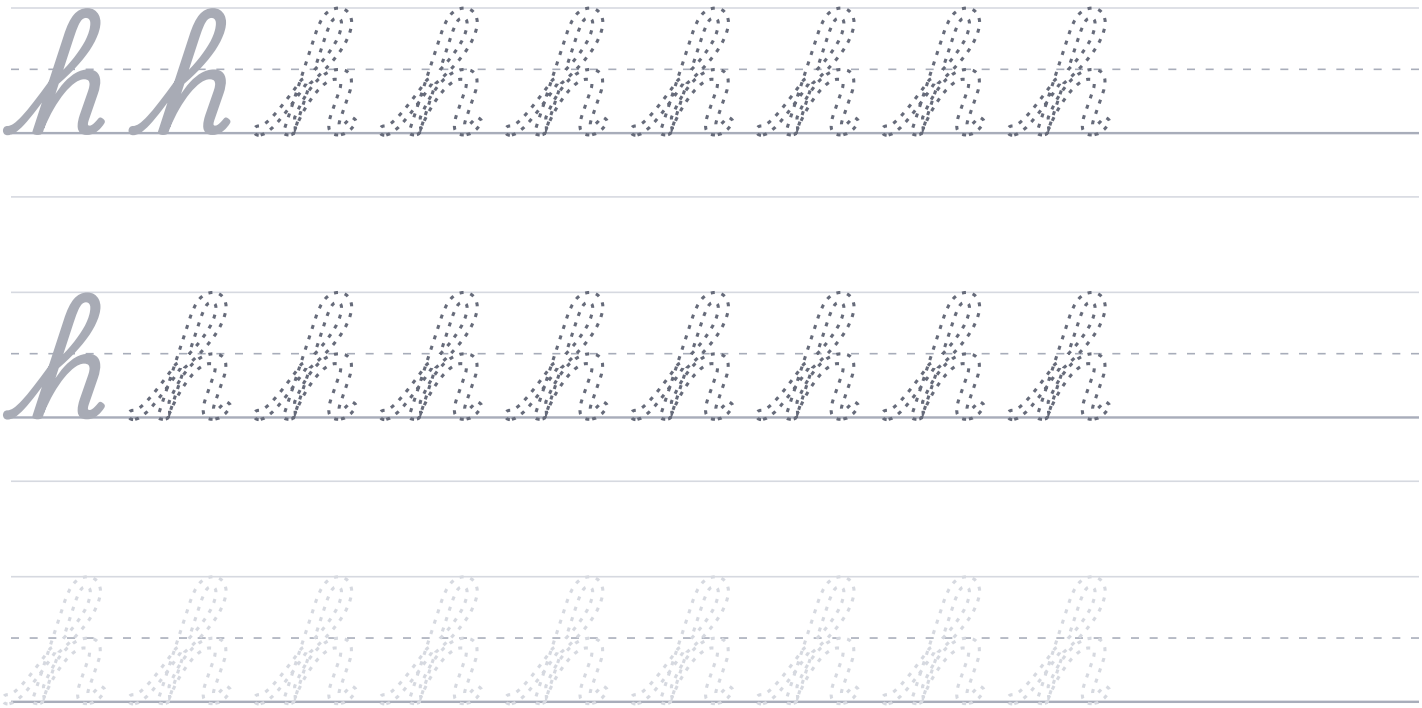

Cursive h

Swing up and loop back down. Keep the loop open.

Cursive i

Start on the baseline and swing up to the midline.

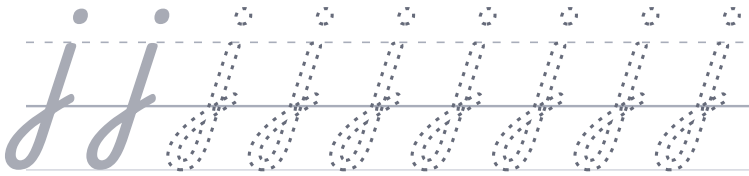

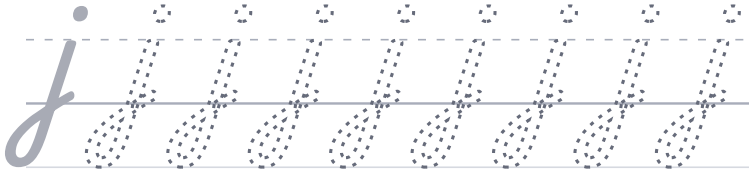

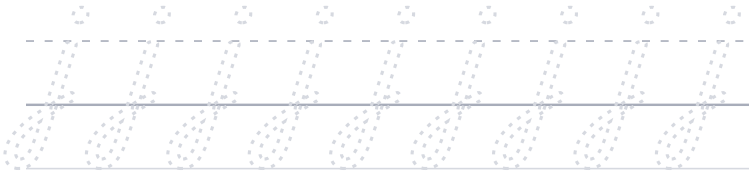

Cursive j

Swing up, go straight down below the line, and loop back up.

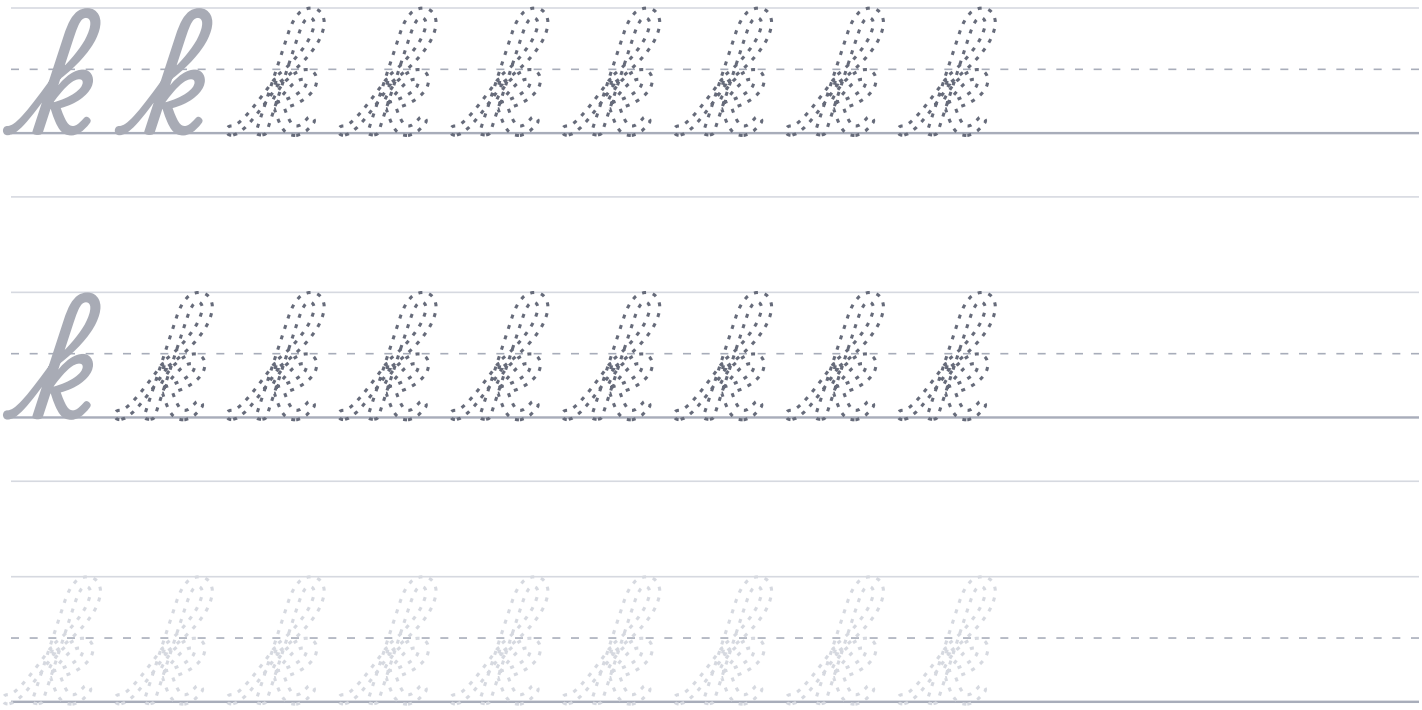

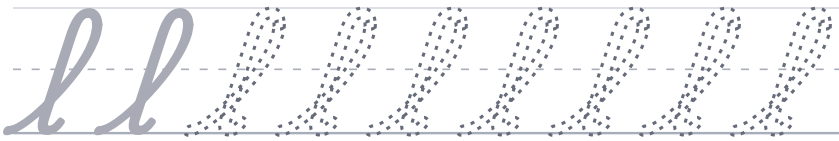

Cursive k

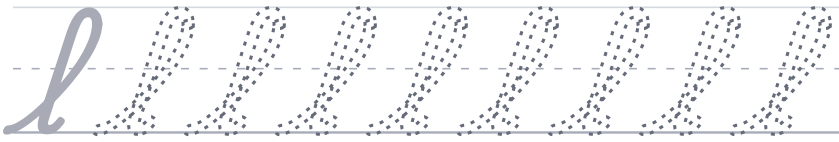

Swing up and loop back down. Keep the loop open.

Cursive l

The tall loop reaches the top line. e is the small one.

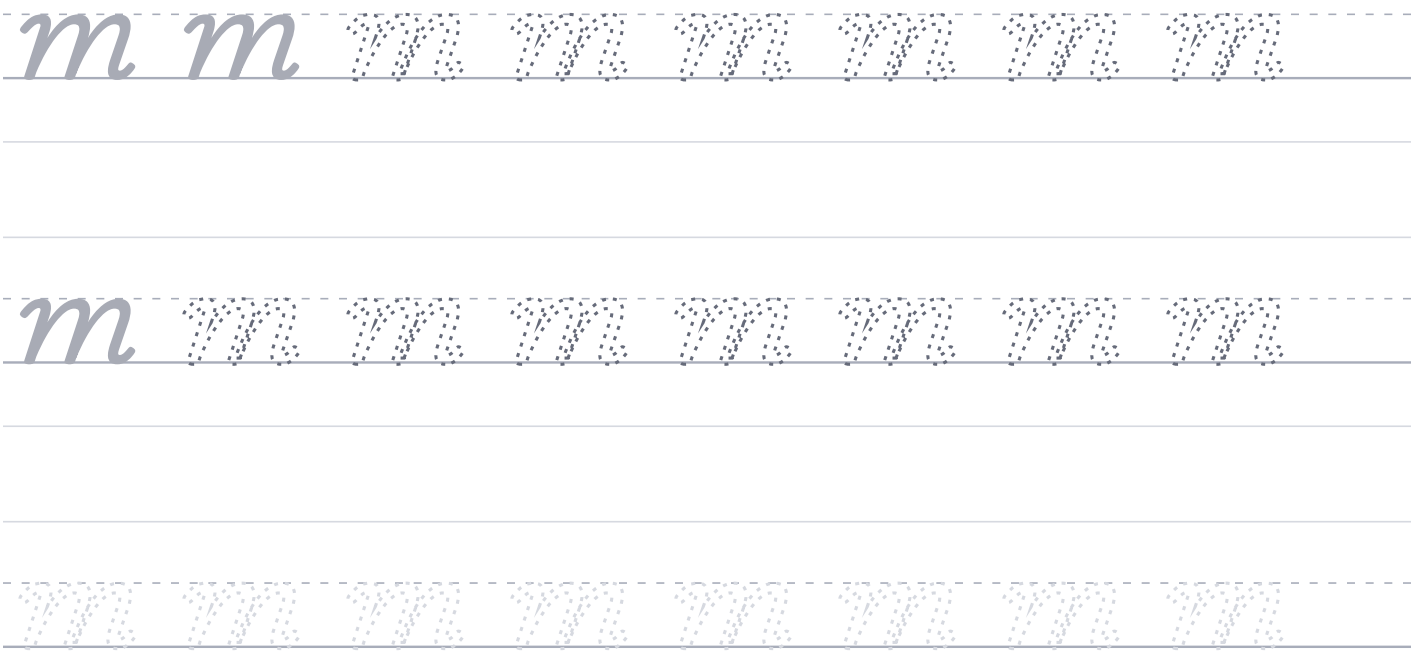

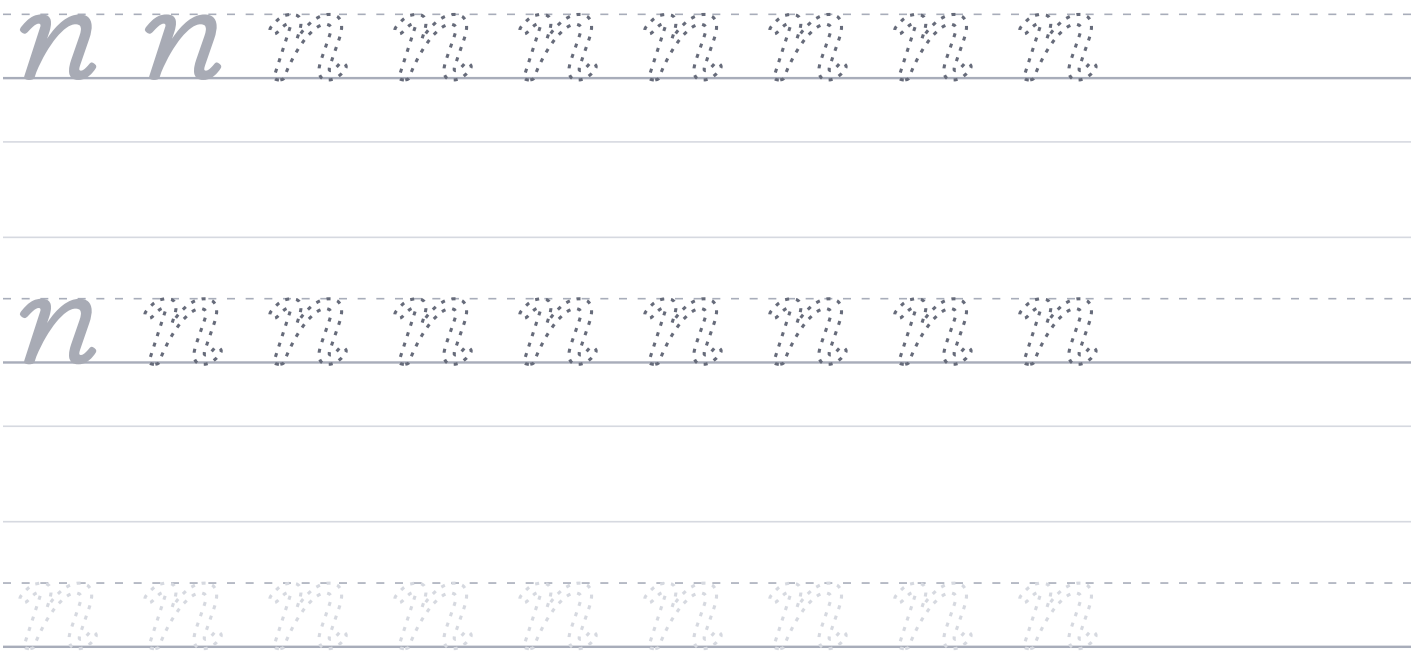

Cursive m

Start with a hump: swing up and over, like a hill.

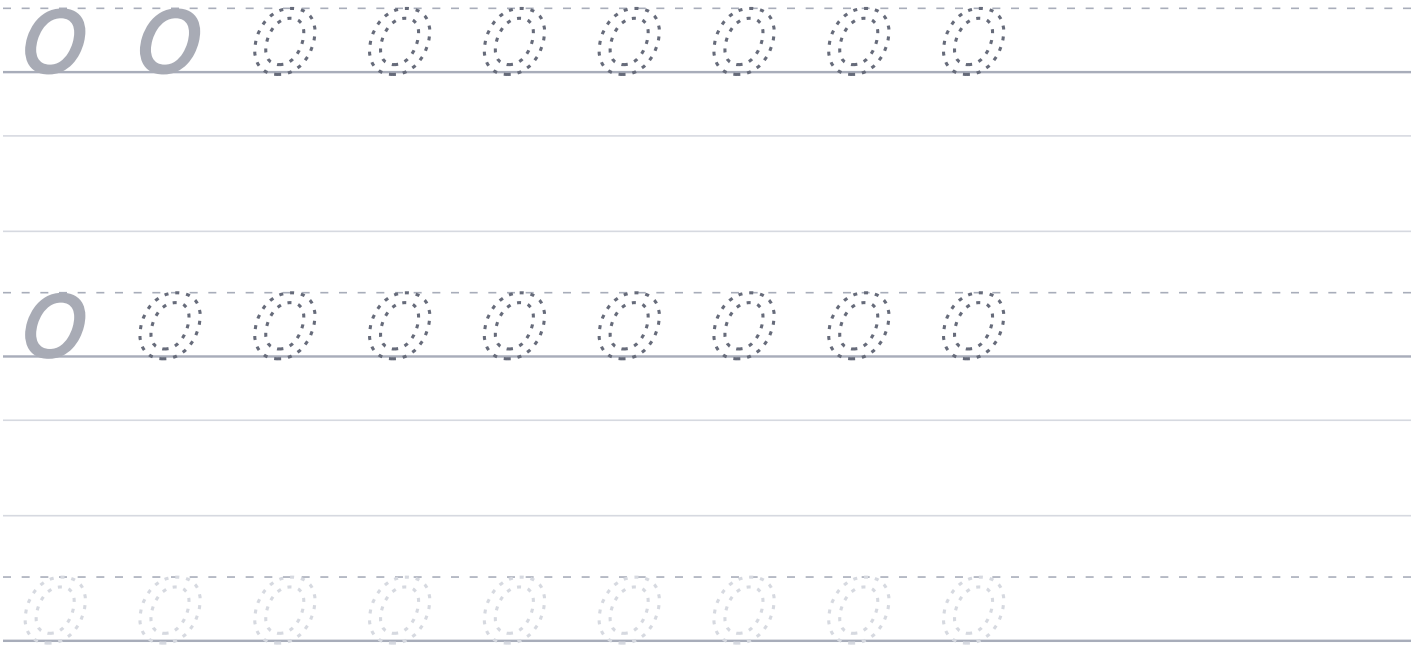

Cursive n

Start with a hump: swing up and over, like a hill.

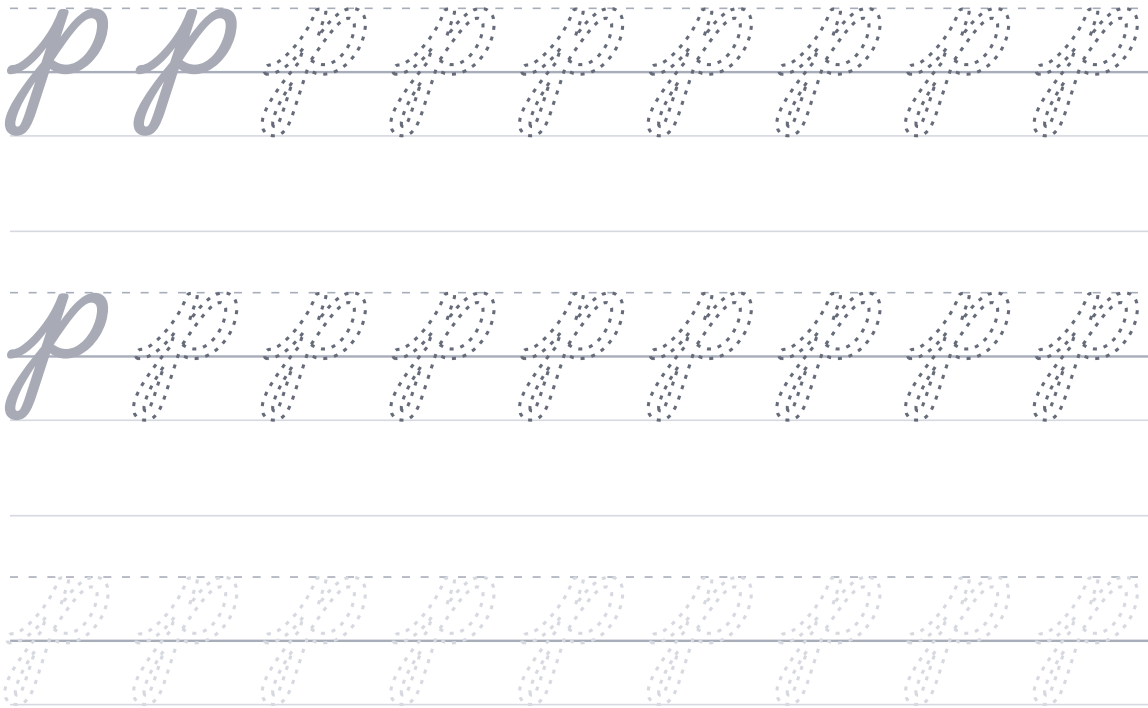

Cursive o

Close the o, then finish with a small curl at the top.

Cursive p

Swing up, go straight down below the line, then back up and round.

Cursive q

Start like a c, go below the line, and swing the tail up to the right.

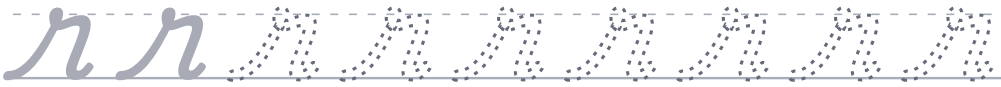

Cursive r

Swing up to a small shoulder just above the midline, then down.

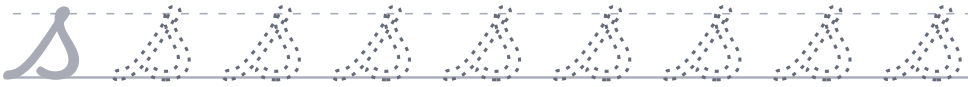

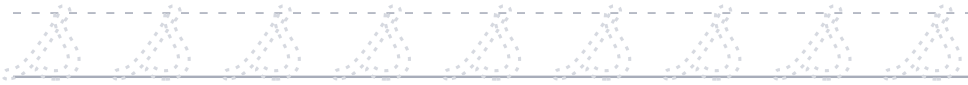

Cursive s

Swing up just past the midline, then close the curve at the bottom.

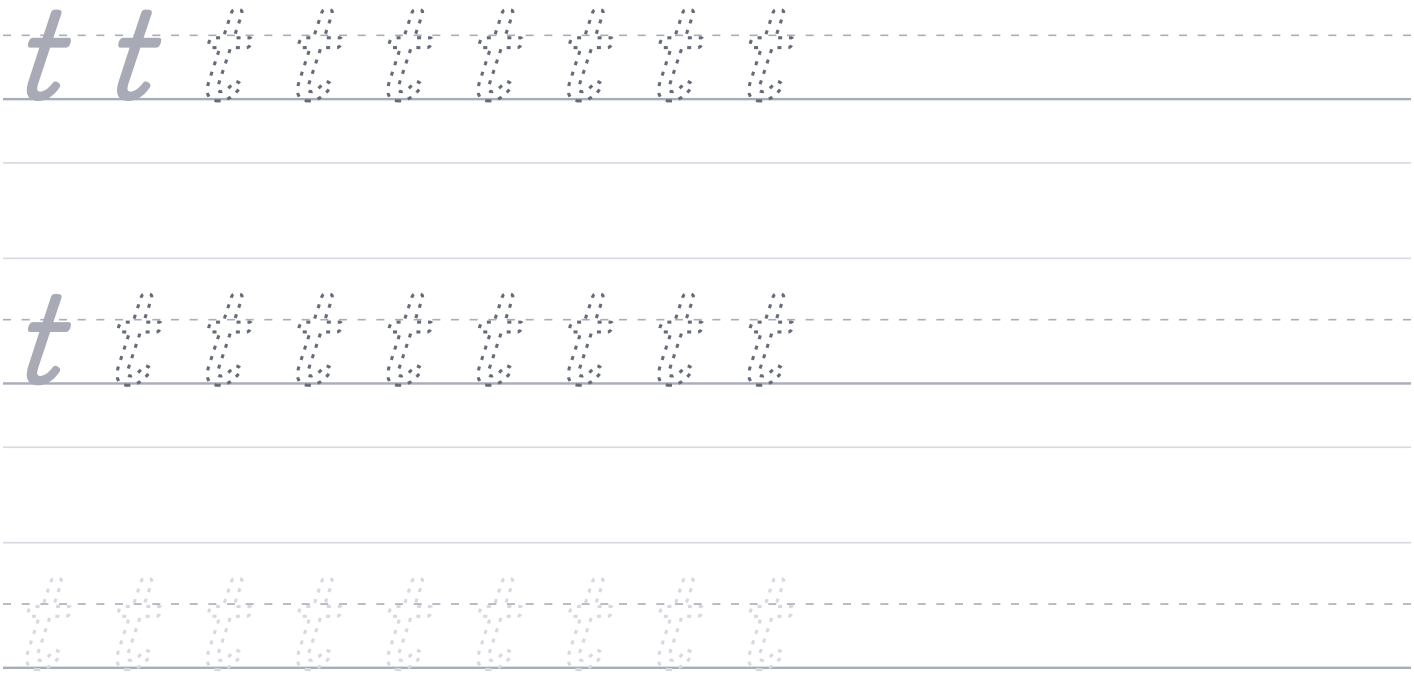

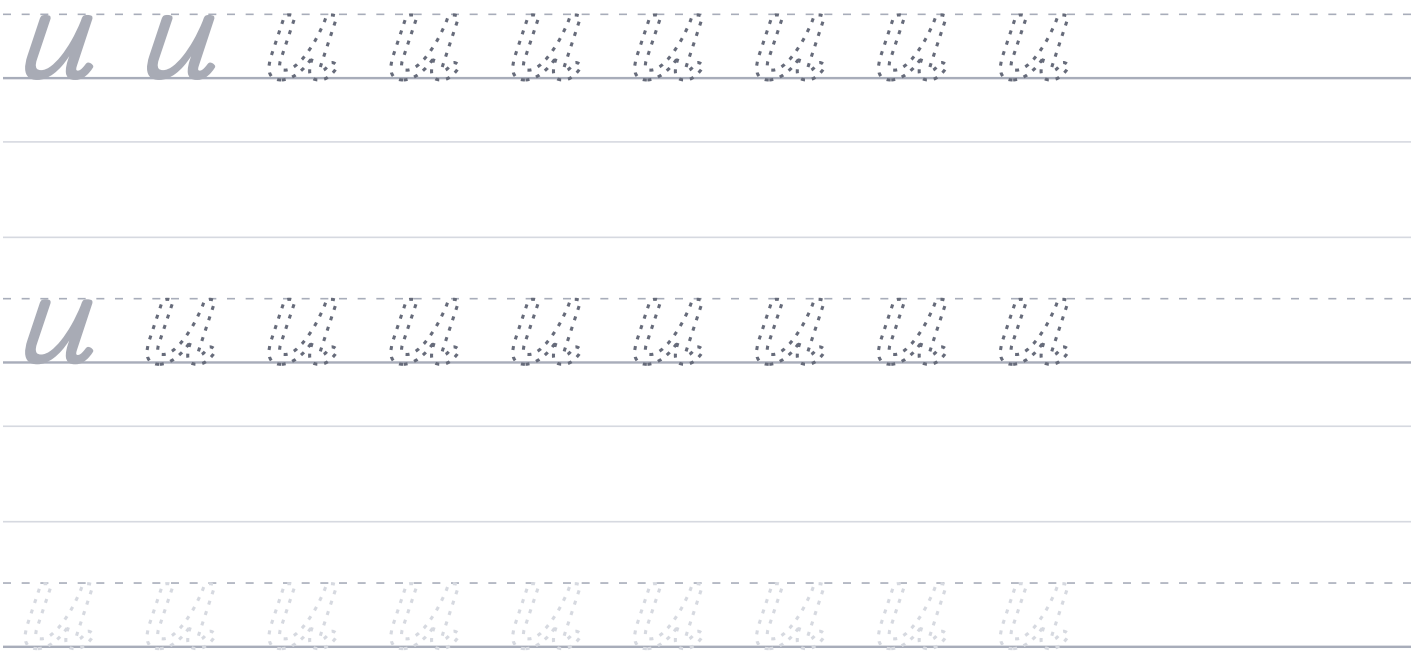

Cursive t

Not as tall as l. Stop below the top line, then cross it.

Cursive u

Start on the baseline and swing up to the midline.

Cursive v

Down into a point, then finish with a small curl at the midline.

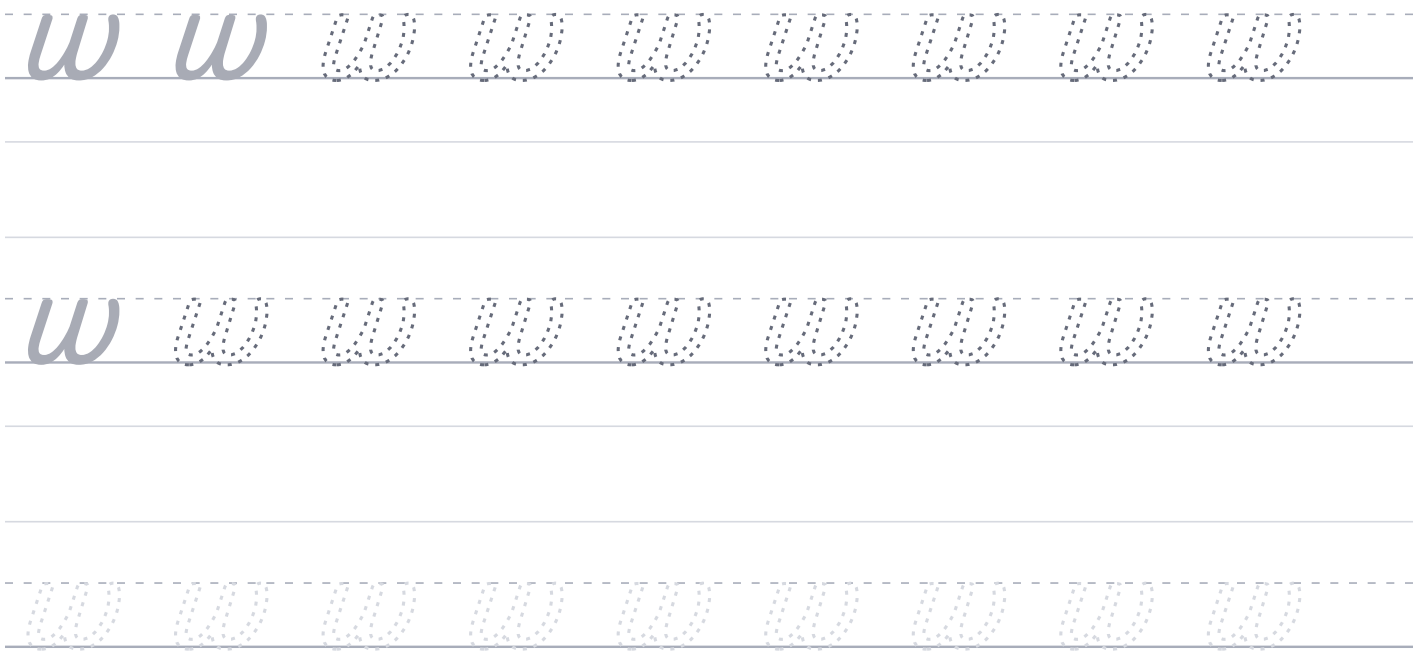

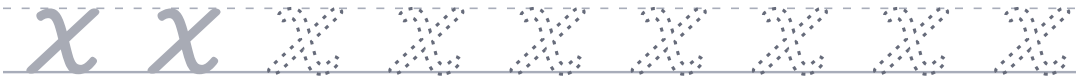

Cursive w

Starts like u, but with two points, and it finishes with a curl at the top.

Cursive x

Not a hump like m and n. Make the first stroke, then cross it last.

Cursive y

A hump, then down below the line and loop back up.

Cursive z

Unlike the printed z, this one swings below the line with a loop.
