Easy Mazes

20 mazes that get bigger, plus a page of answers

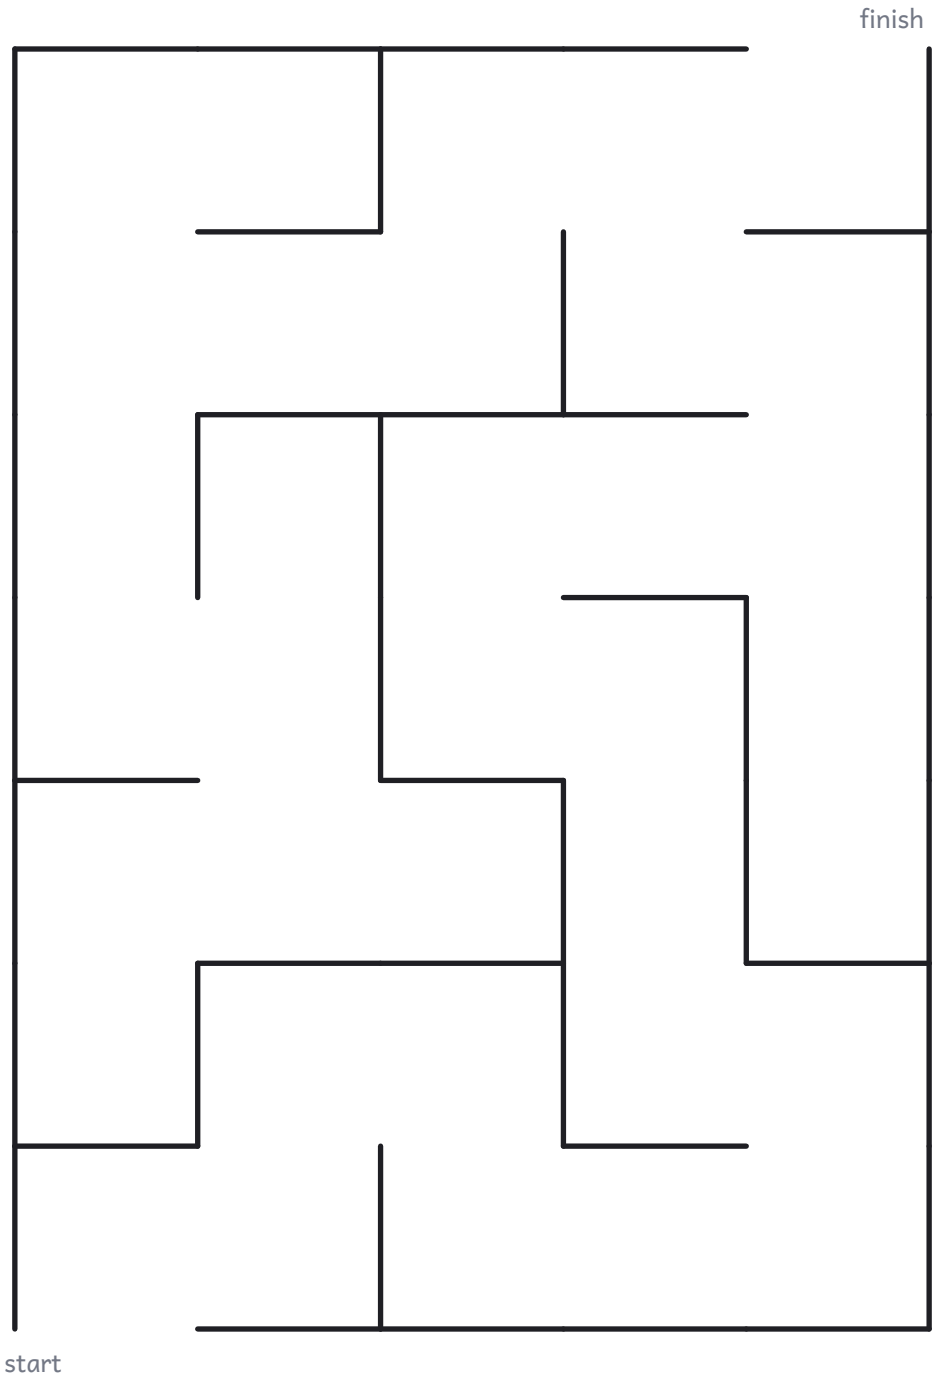

A maze is pencil control with a reason to finish. The child has to look ahead, plan, and keep the line inside the path - the same control a letter needs.

The first mazes are 5 squares wide. The last are 10. Answers are at the back, drawn as a dotted path.

US Letter - black ink only - ages 4-7

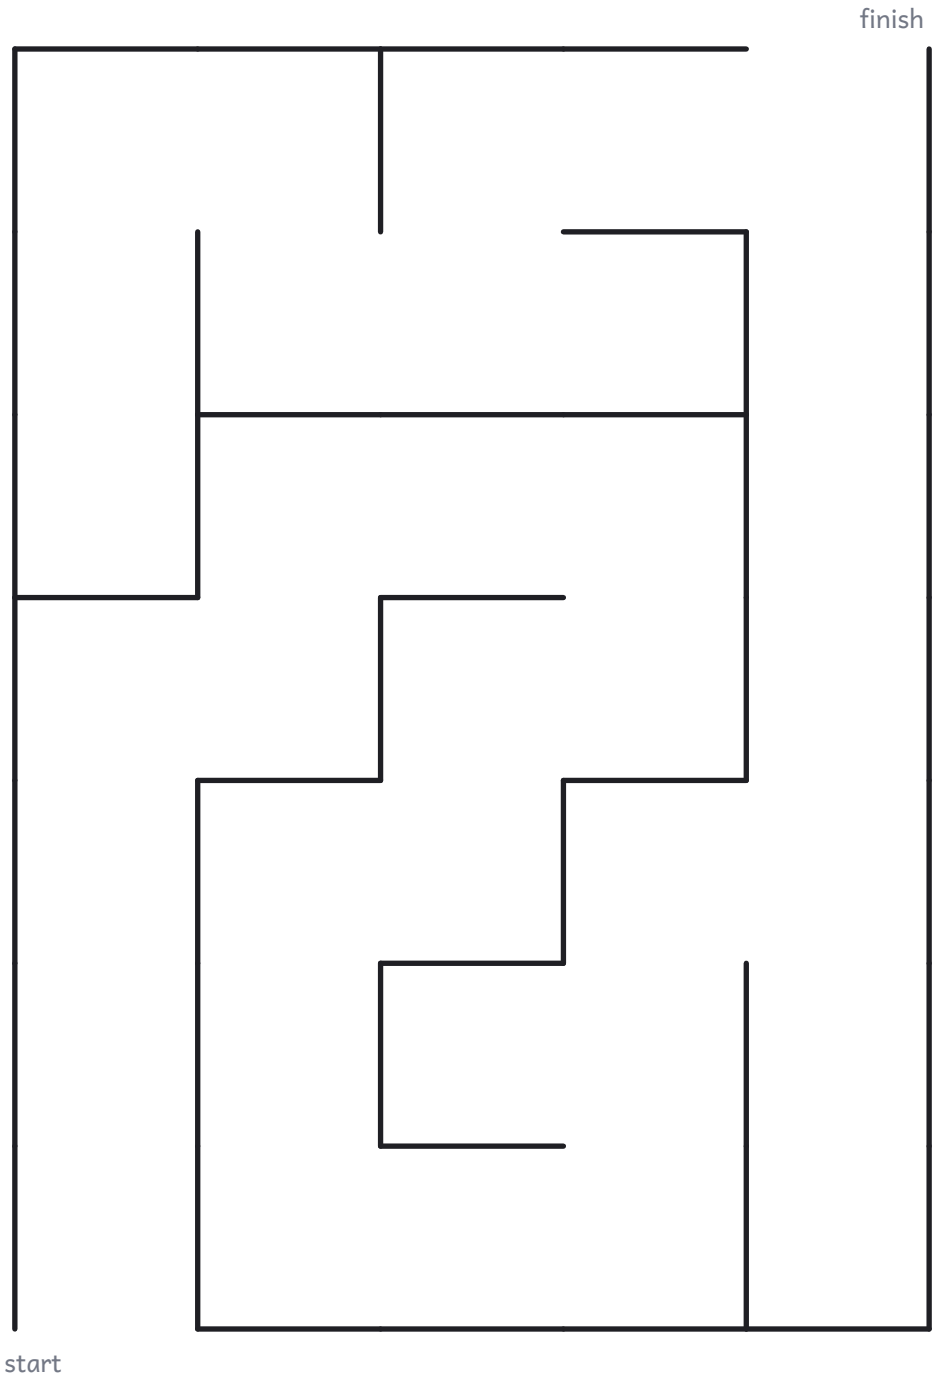

Maze 1

5 squares across. Start at the bottom left corner, finish at the top right.

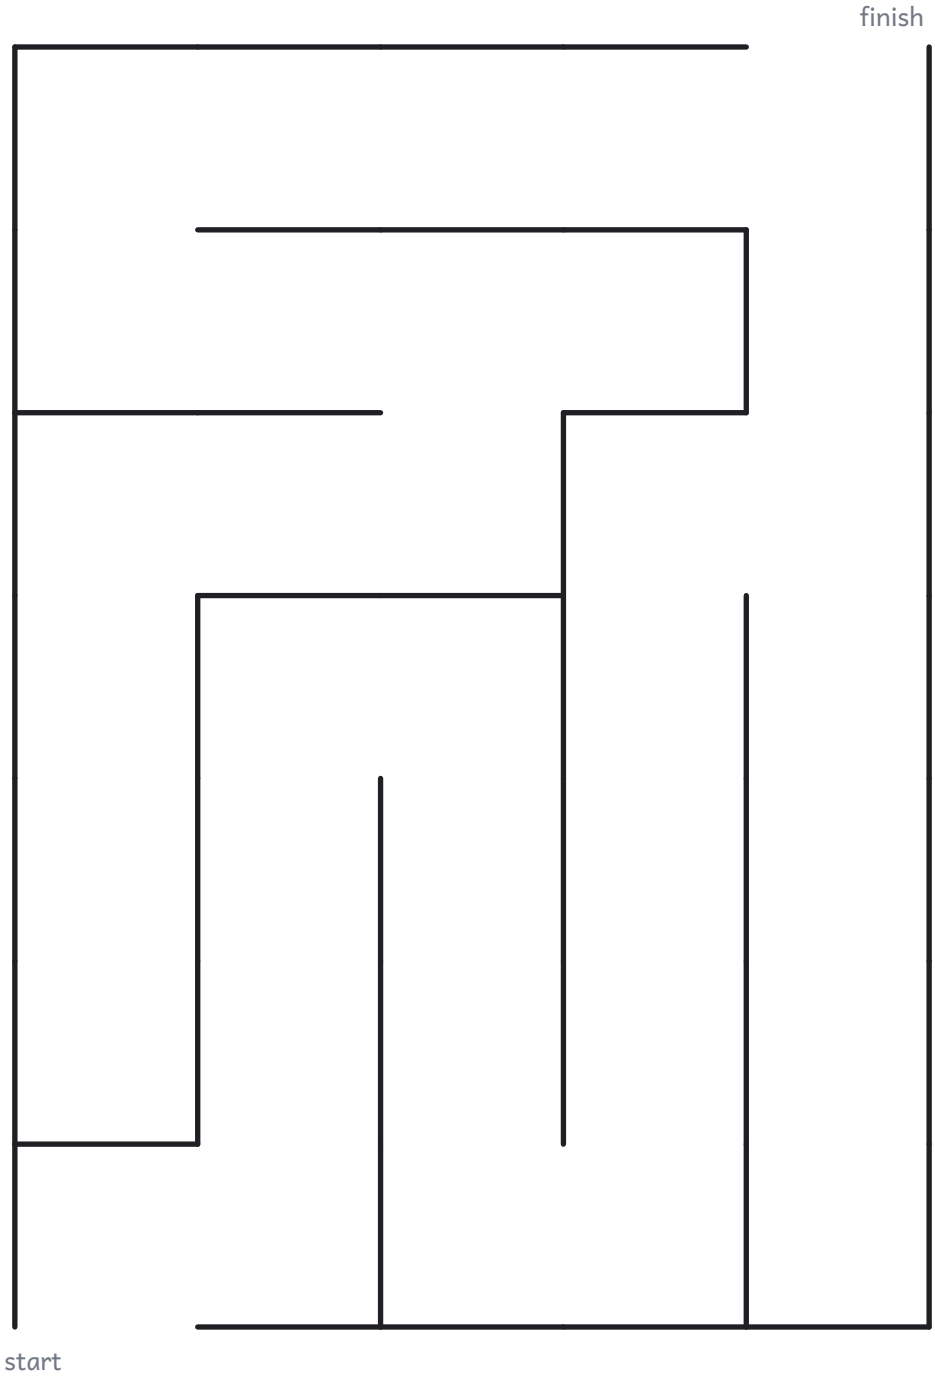

Maze 2

5 squares across. Start at the bottom left corner, finish at the top right.

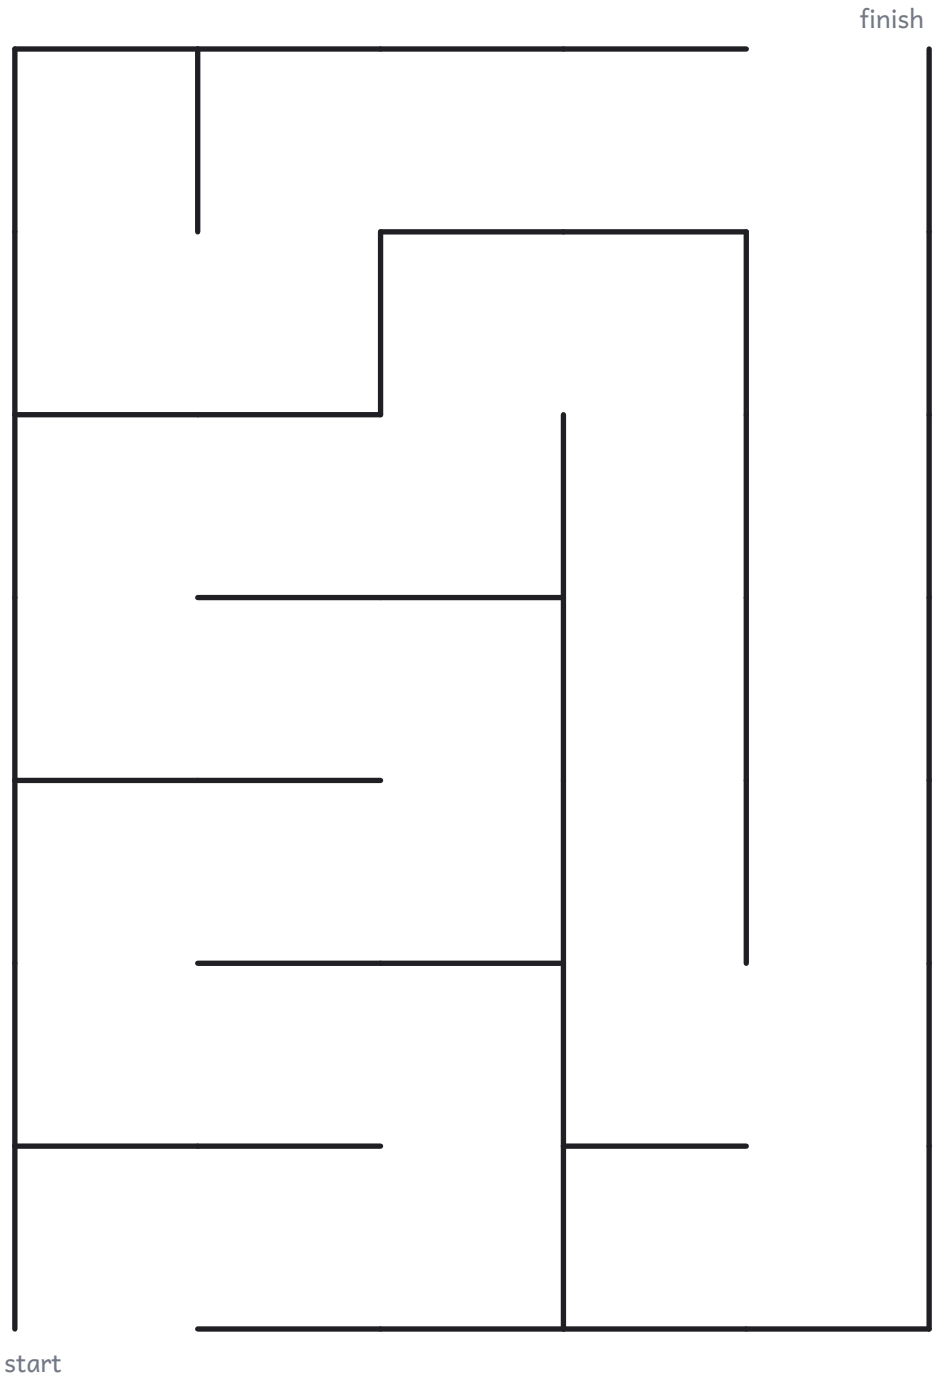

Maze 3
