MATH - ALL FOUR OPERATIONS

Mixed Operations + − × ÷

Read the sign, find the missing sign, then pick the operation

12 + 9 = 21

40 − 15 = 25

6 × 7 = 42

36 ÷ 4 = 9

Most mistakes on a mixed sheet are not sums done wrong but signs read wrong. So sheets 1-4 keep one sign to a column, 5-10 mix the signs in every column, and 11-14 hide the sign (8 ? 4 = 2).

Sheets 15-18 are missing numbers in all four operations, and 19-24 are short word problems where the child chooses + − × or ÷.

Adding and taking away to 100, times and divide within 10 × 10. Twenty-four sheets. Answers at the back.

US Letter - black ink only - class 2 and 3, ages 7-9

Name _____ Date _____

One sign in each column

Each column keeps the same sign all the way down.

48 + 8 = ☐	93 − 82 = ☐	7 × 2 = ☐	42 ÷ 7 = ☐
