MATHS - WRITING NUMBERS

Number Tracing 1-100

12 worksheets: one decade a page, then the 100 chart

Number tracing past 20, one decade on every sheet.
Copy each number once, trace it four times.

The teens get their own warning: we say thirteen ones first, so children write 31. The 1 goes first.

Then a 100 chart to trace and one to fill in alone.

US Letter - black ink only - ages 4-7

Trace the numbers 1 to 10

One digit each. Start every number at the top.

Trace the numbers 11 to 20

Say thirteen, write 1 then 3. The 1 always goes first, even though you hear it last.

Trace the numbers 21 to 30

Every number here starts with 2. Only the second digit changes.

21	21	21	21	21
22	22	22	22	22
23	23	23	23	23
24	24	24	24	24
25	25	25	25	25
26	26	26	26	26
27	27	27	27	27
28	28	28	28	28
29	29	29	29	29
30	30	30	30	30

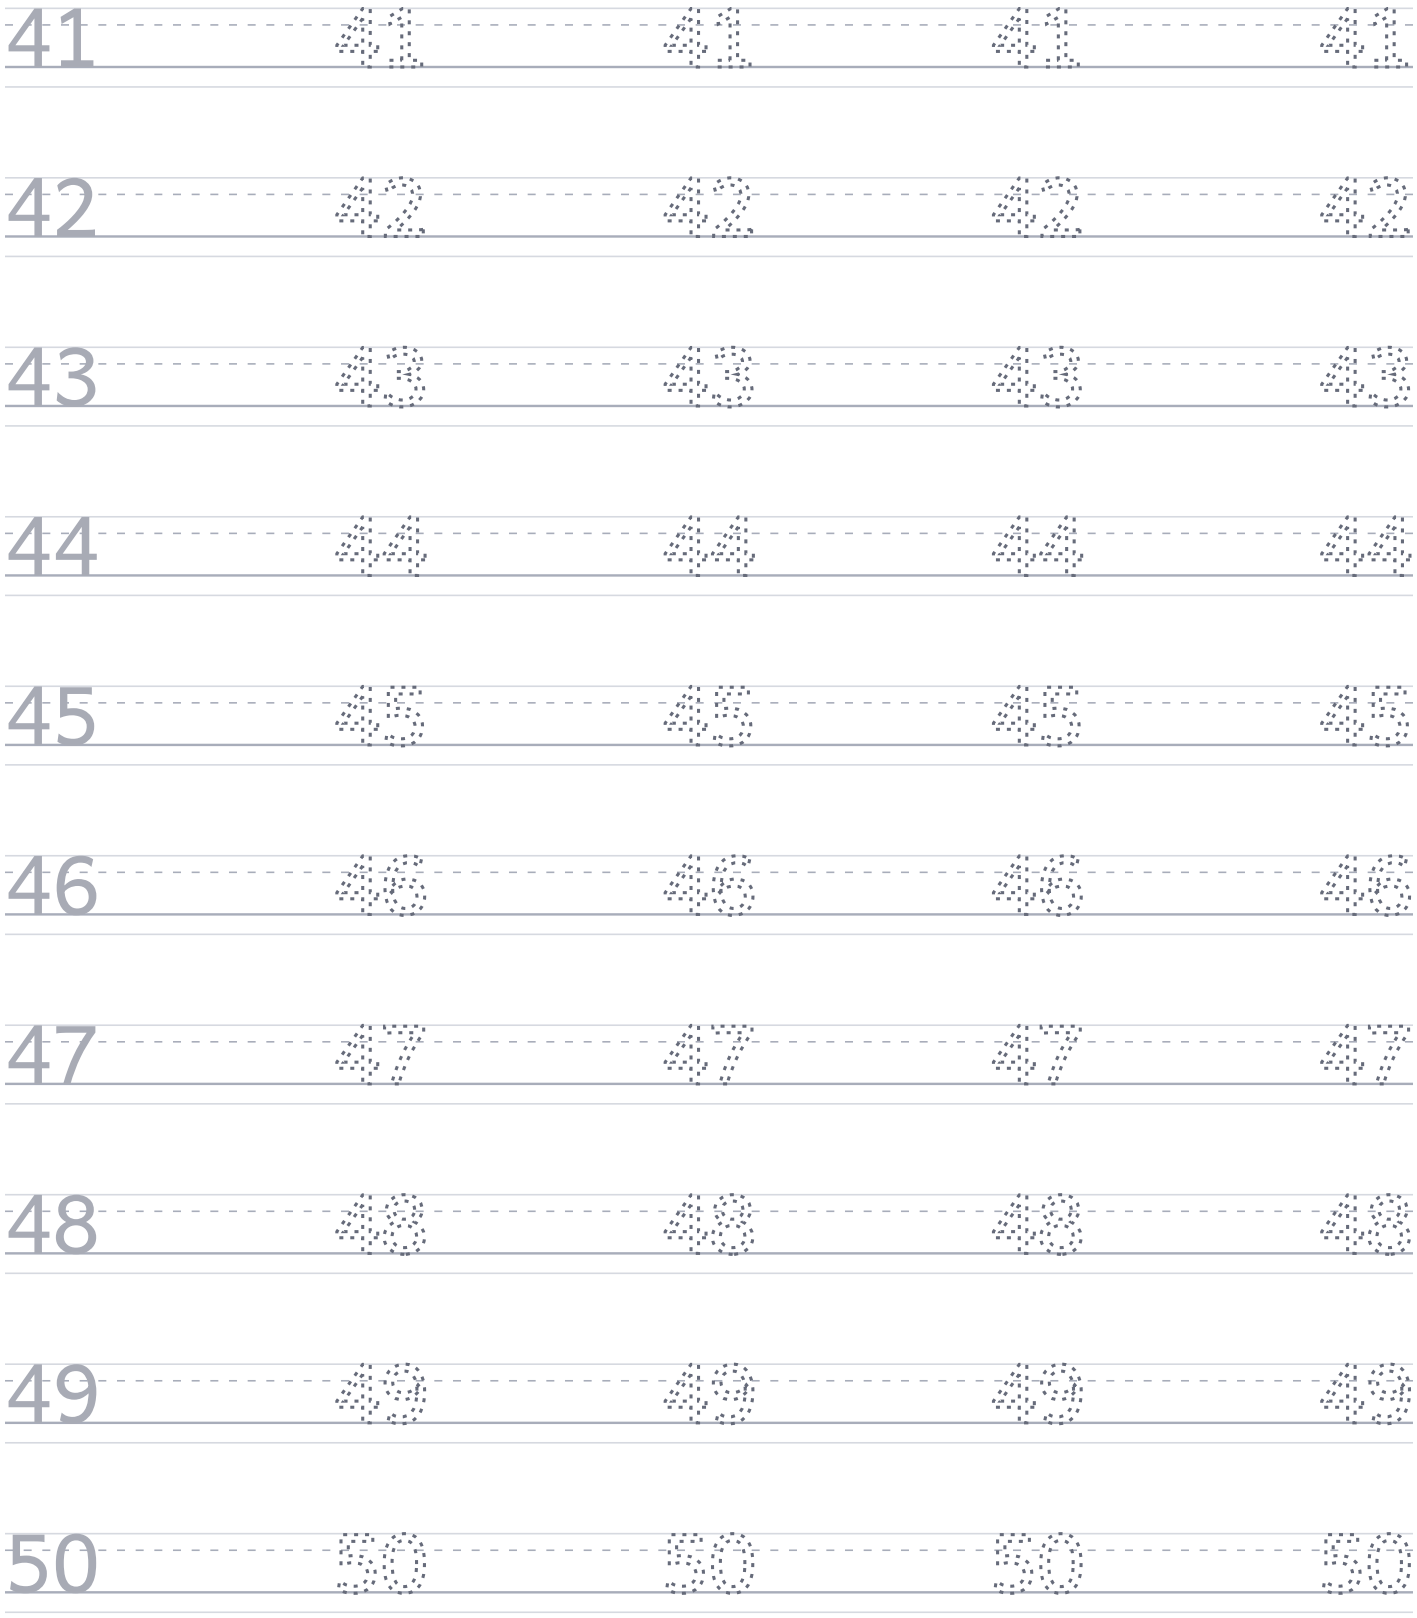

Trace the numbers 31 to 40

Every number here starts with 3. Watch the 3 and 8 when they meet.

31	31	31	31	31
32	32	32	32	32
33	33	33	33	33
34	34	34	34	34

36	36	36	36	36
37	37	37	37	37
38	38	38	38	38
39	39	39	39	39
40	40	40	40	40

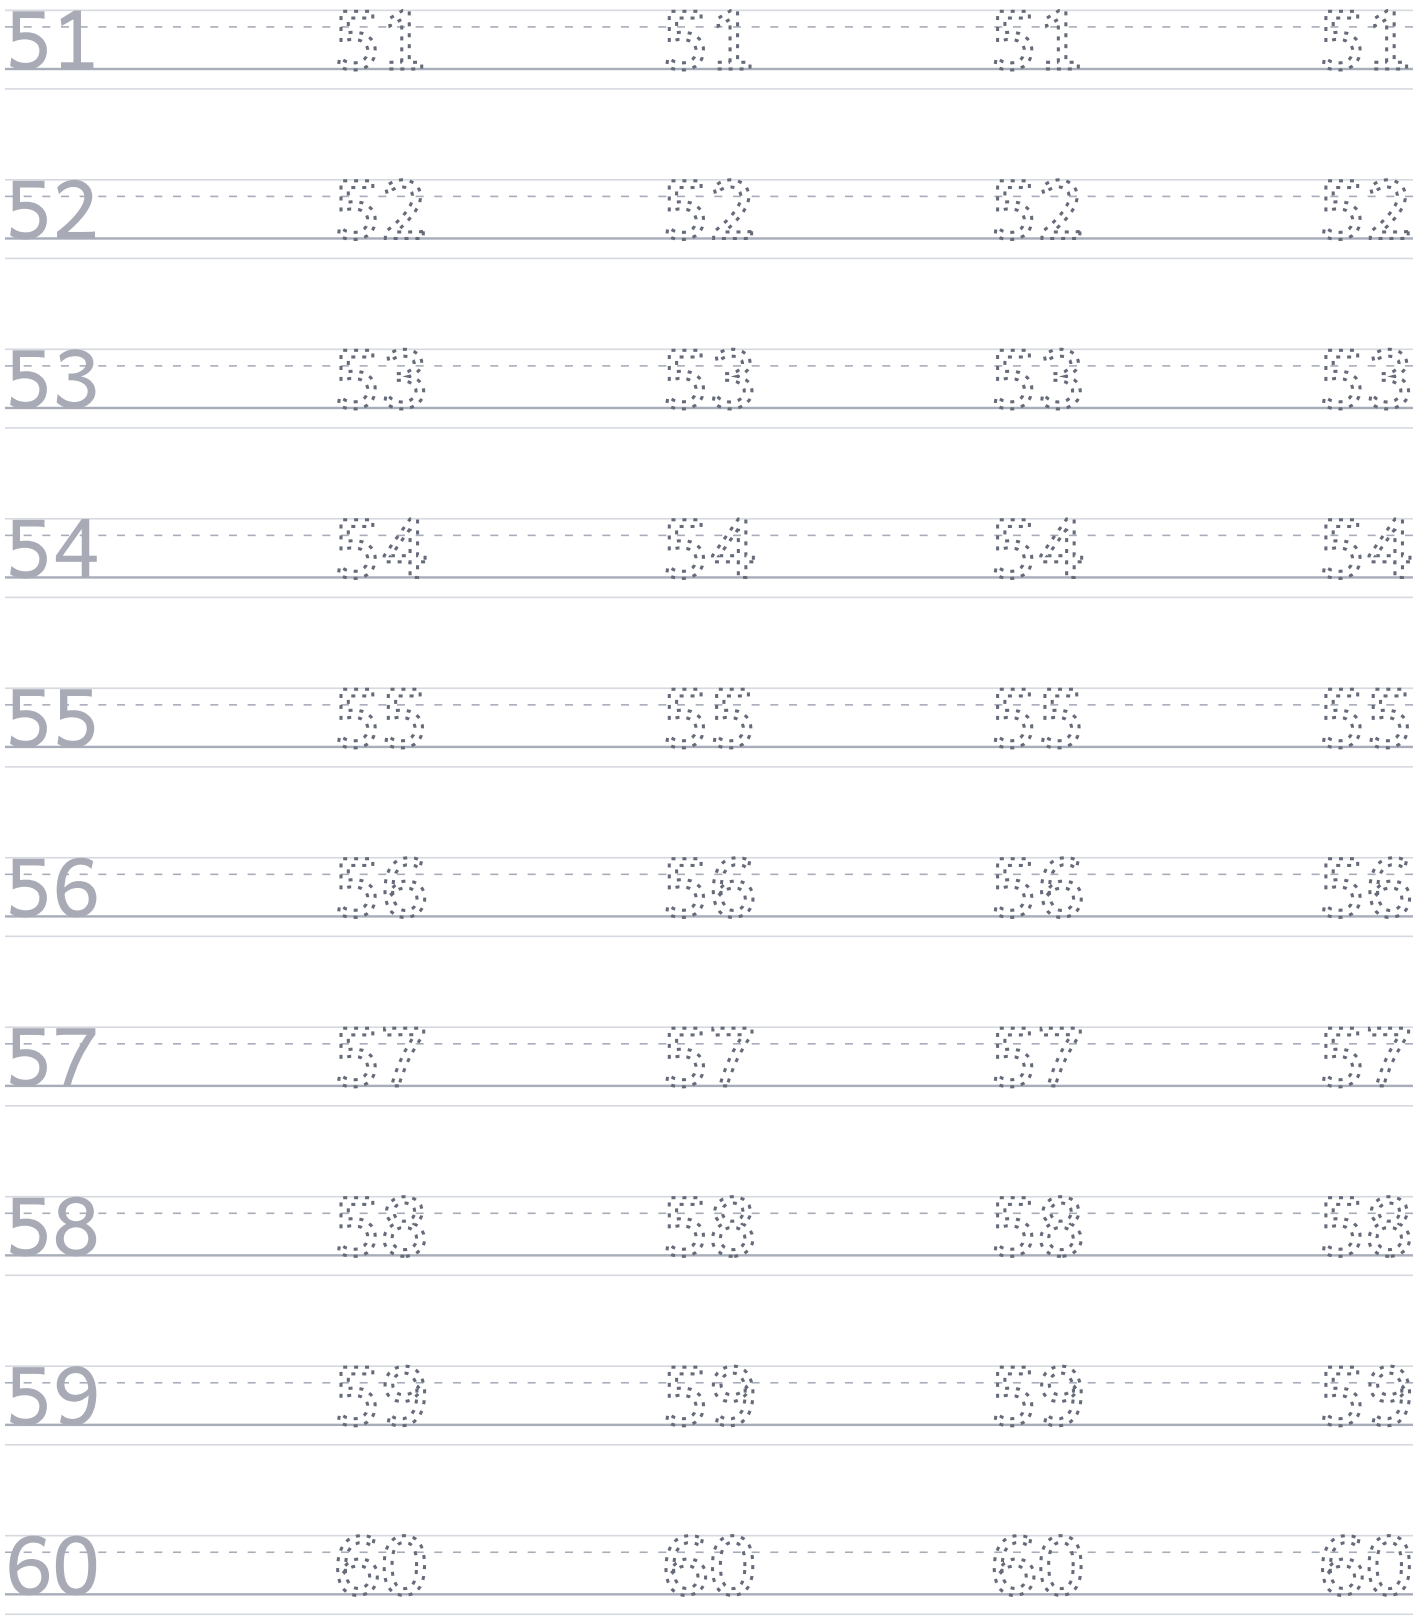

Trace the numbers 41 to 50

Every number here starts with 4. Close the top of the 4 or leave it open, but keep it the same.

Trace the numbers 51 to 60

Every number here starts with 5. The 5 has a flat hat, drawn last.

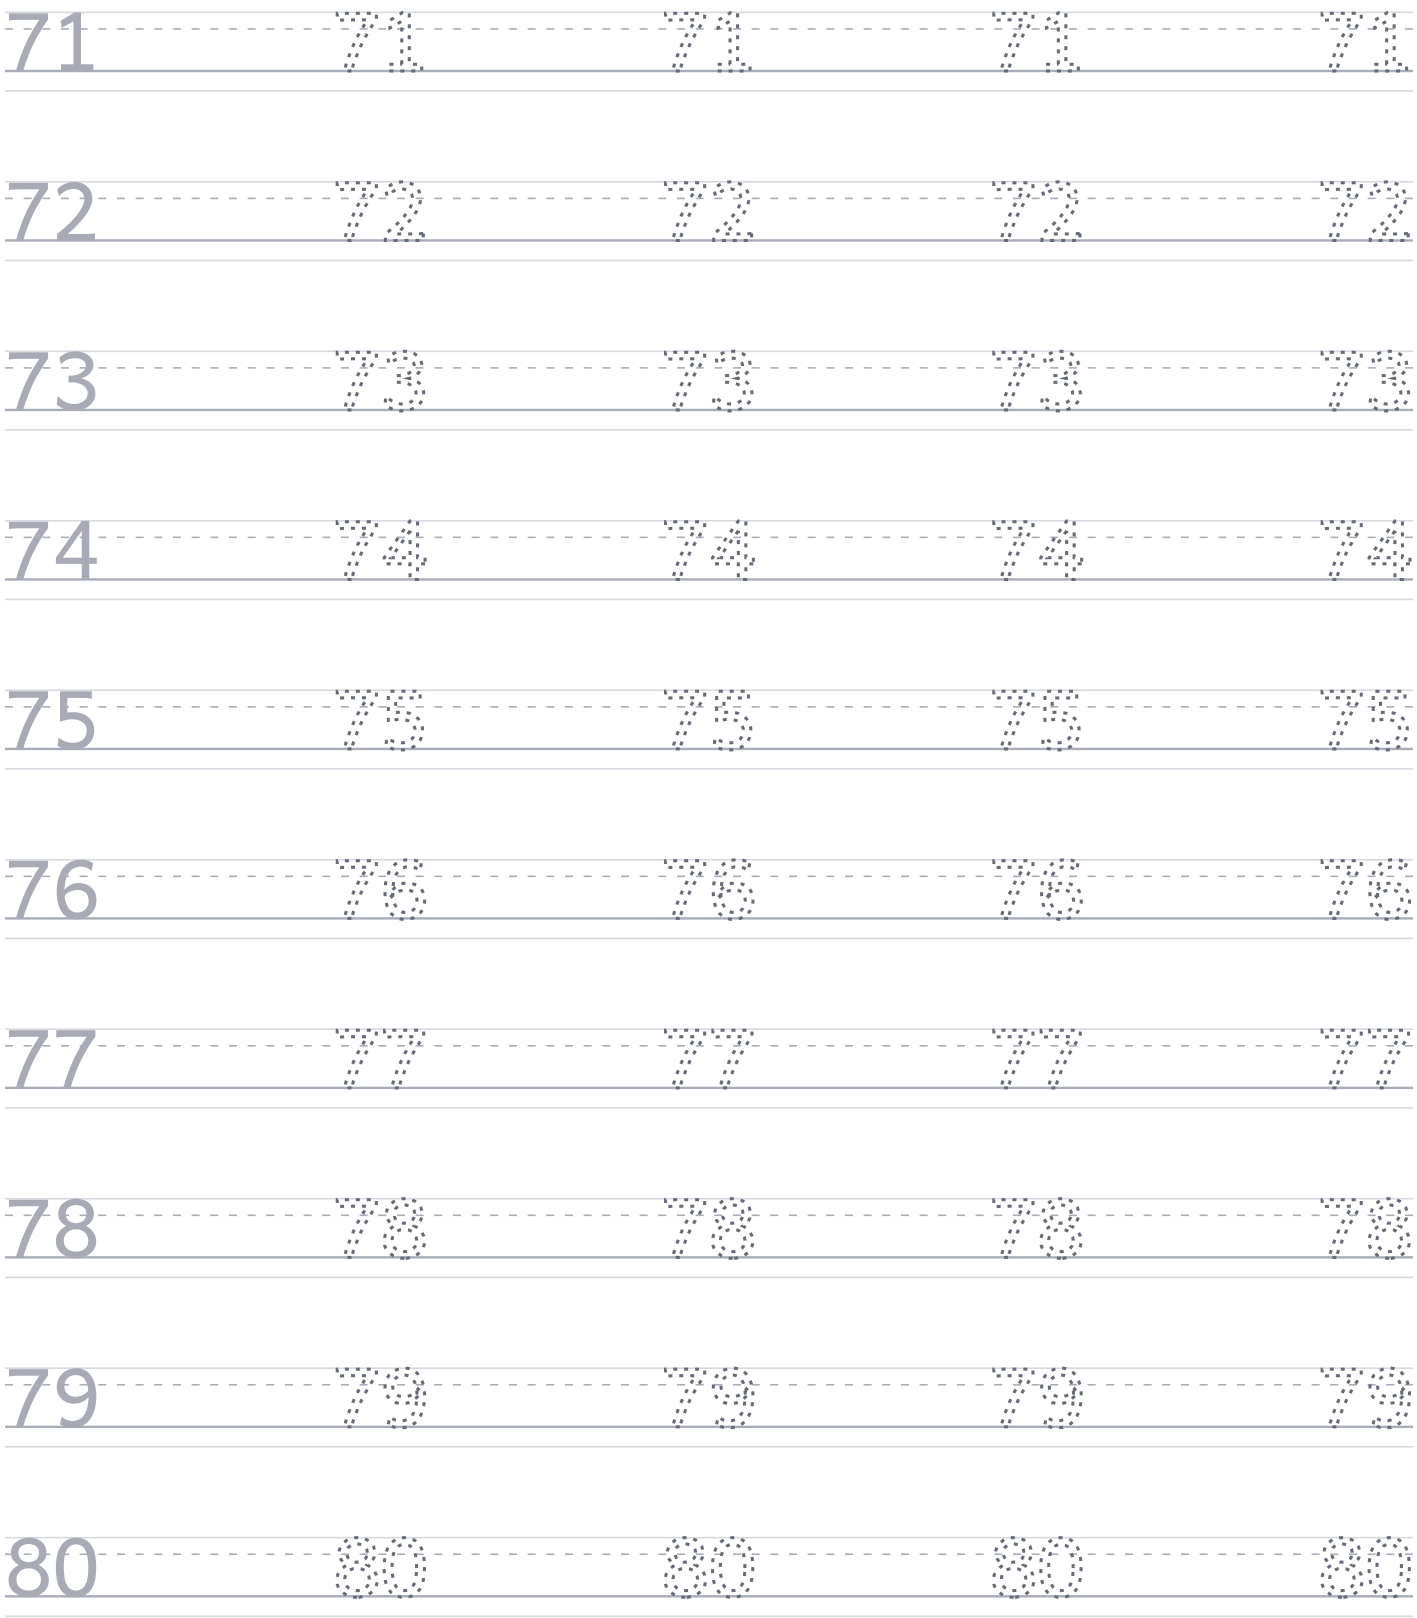

Trace the numbers 61 to 70

Every number here starts with 6. The 6 curls round from the top.

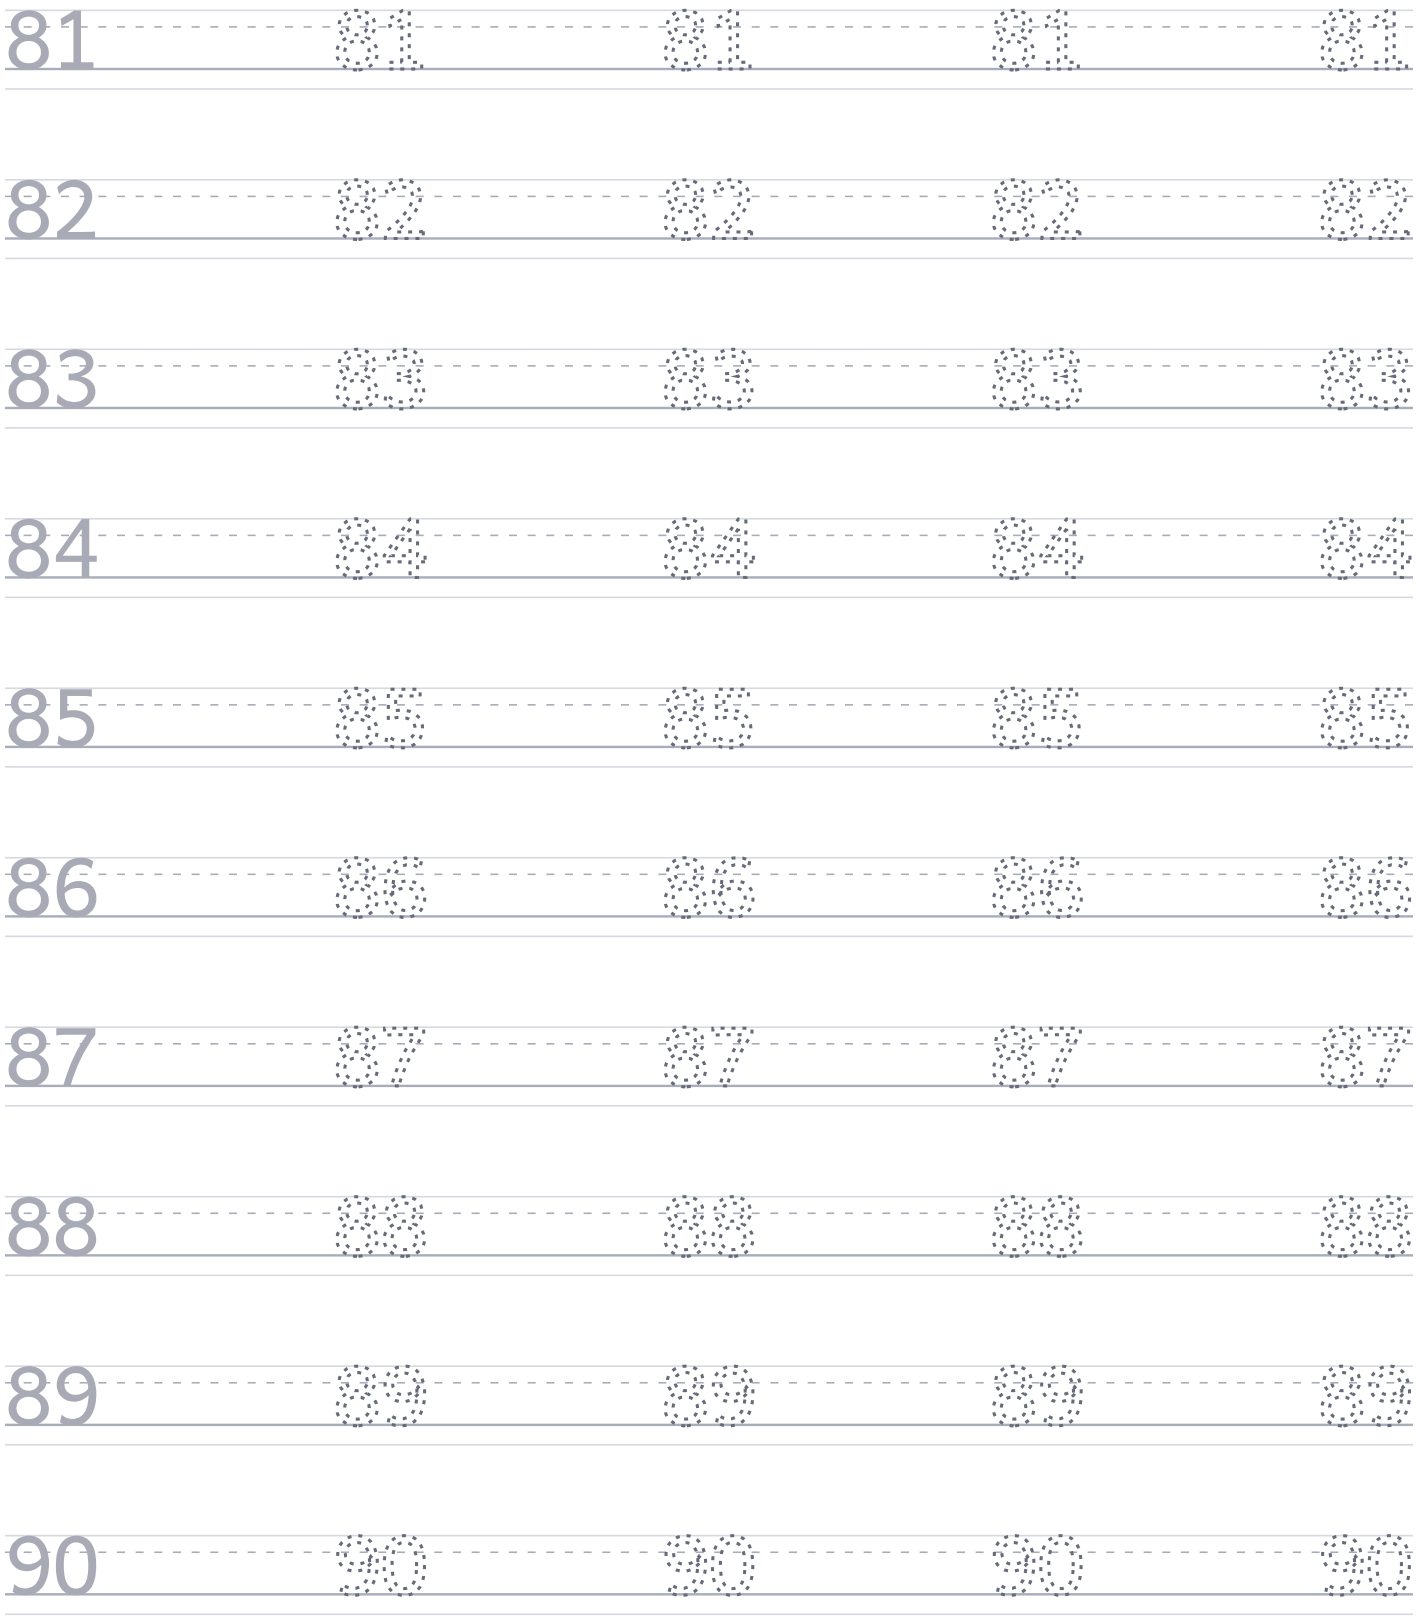

Trace the numbers 71 to 80

Every number here starts with 7. Do not cross the 7, just one straight stroke down.

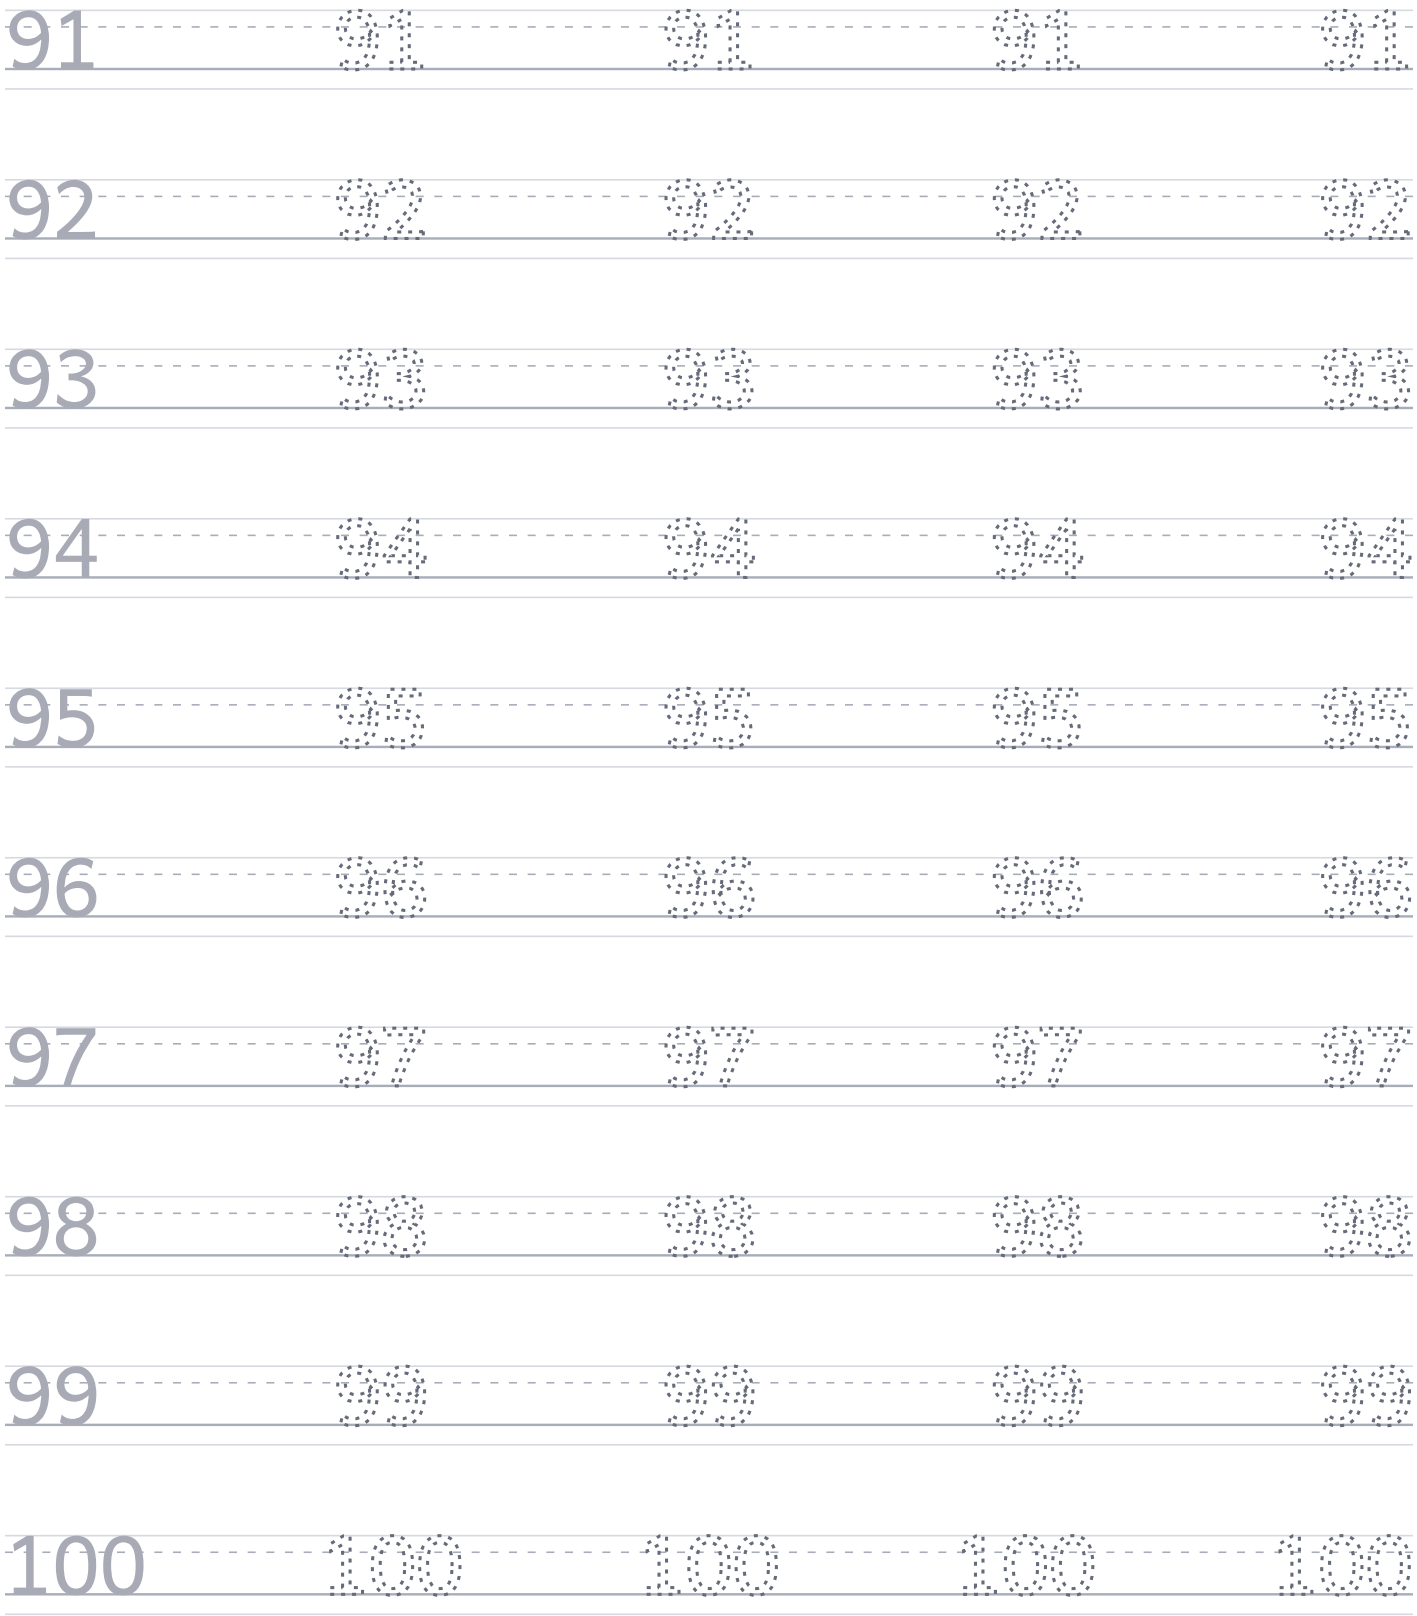

Trace the numbers 81 to 90

Every number here starts with 8. Make the 8 in one go, an S and back up.

Trace the numbers 91 to 100

Every number here starts with 9. And 100 is the first number with three digits.

Trace the 100 chart

Go along each row. Down each column the ones digit stays the same.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
