MATHS - TIME

Telling the Time

Twelve sheets: o'clock, then half past

The short hand is the hour and the long hand is the minutes, and almost every mistake a child makes comes from reading them the wrong way round.

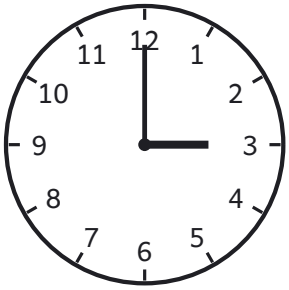

Four sheets of o'clock, four of half past, and four mixed - half asking the child to read a clock, half asking them to draw the hands themselves.

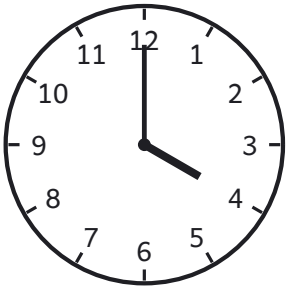

US Letter - black ink only - ages 5-8

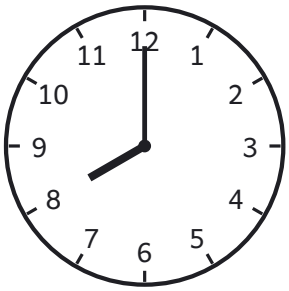

Name _____ Date _____

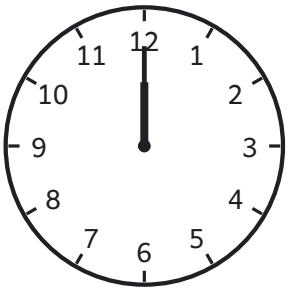

Read the clock - o'clock

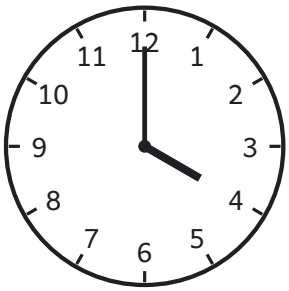

Write the time under each clock.

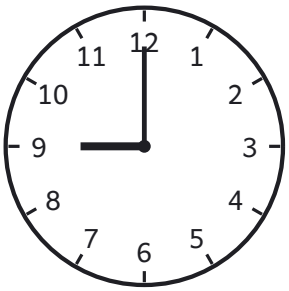

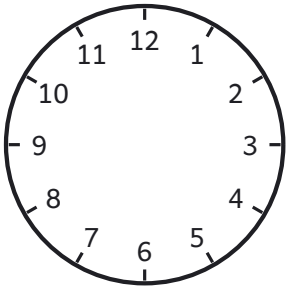

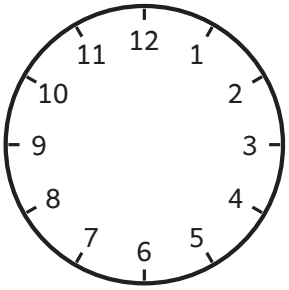

Name _____ Date _____

Draw the hands - o'clock

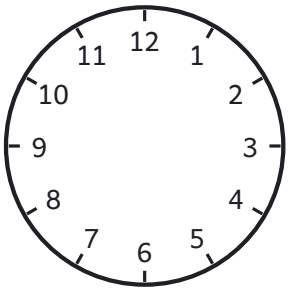

Draw the hour hand short and the minute hand long.
