MATHS - PLACE VALUE

Ten Frames 1 to 20

Twelve sheets of ten frames, filled and empty

A ten frame is two rows of five. Seven stops being a count and becomes a full row and two more, which is the first step towards adding without counting.

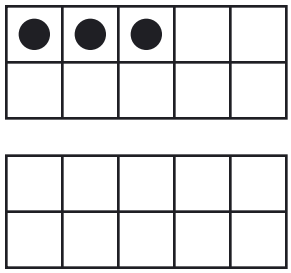

The first six sheets ask a child to read a filled frame. The last six give the number and ask them to fill the frame in.

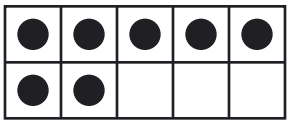

US Letter - black ink only - ages 4-6

Name _____ Date _____

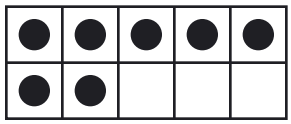

Read the frame

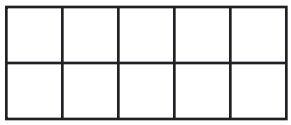

Count the dots and write the number.
