HANDWRITING - NO TRACING

Write the Alphabet A-Z

Missing letters, next and before, then A to Z from memory

A B C _ _

Nothing in this book is dotted. It is the step after tracing, when the child knows the shapes and has to produce them alone.

Sheets 1-6 fill gaps in the alphabet, 7-10 ask what comes next and what comes before, 11-16 copy each letter from one model, 17-20 write the whole alphabet, and 21-24 pair capitals with small letters.

Twenty-four sheets. Answers at the back.

A4 - black ink only - ages 4-6
